With modular architecture and flexible scalability, it is ideal for applications like peak shaving, frequency regulation, EV charging stations, solar + storage systems, and microgrids.

1075kWh battery storage with 500 kW rated AC output, ideal for commercial and industrial loads.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing ...

Discover our 500kW solar energy storage system featuring high-efficiency solar panels, smart inverters, Grade A LiFePO₄ batteries with 8000 cycles and 10-year design life, reliable BMS, liquid cooling, and ...

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

The BESS solution delivers utility-grade energy storage for commercial and industrial applications. The system features modular architecture supporting 250kW to 500kW continuous power output with ...

ESS-GRID FlexiO is an air-cooled industrial/commercial battery solution in the form of a split PCS and battery cabinet with 1+N scalability, combining solar photovoltaic, diesel power generation, grid and ...

This solution is designed to meet the development needs of renewable energy and new energy vehicles, that is, photovoltaic + energy storage + EV charging mode, using photovoltaic power generation to ...

SUNSYS HES L is a modular outdoor energy storage system designed for both on-grid and off-grid applications. It is available in a variety of configurations, to ...
