APT Paralleling Switchgear and Paralleling Control Systems are able to control power generators in voltage range of 120 V - 38 kV and up to 6000 Amps.

Our patented solar lighting solutions are 12 times more powerful than solar lights, and 80% cheaper than grid lights. APT Solar Solutions is a Limited Liability ...

APT has the resources and expertise to provide safe, reliable, and cost-effective solutions for the collection of solar generated power for utility scale grid tie and ...

The power module integrates vertical arrays of solar cells, encased in a transparent, modular tube to capture sunlight from all directions, maximizing energy ...

APT understands the need to have reliable monitoring and control of multiple renewable energy sources. The Microgrid Master Control Panel provides real ...

When you want to save money and protect against unpredictable future power cost increases, APT Solar is here to help you with Photovoltaic (PV) technology. Demonstrate your commitment to clean ...

APT manufactures a variety of Medium Voltage Switchgear & Low Voltage Switchboards. In addition, they are customizable with APT Control System ...

Looking for a reliable solar power generation and battery energy storage system manufacturer with OEM/ODM capability, scalable production capacity, and global project experience? This ...

APT Solar Solutions is redefining the boundaries of solar energy with their pioneering three-dimensional solar module technology. On April 3rd, their team marked their official launch as a ...
