Earlier this year, the state-owned utility OSHEE announced plans for five solar parks, each with a capacity of up to 50 MW, across the regions of Fier, ...

A ceremony took place in Albania, 22 July 2025, to sign the agreement to build a new solar photovoltaic power plant at Belshi. The EUR42 ...

The 50 MWp solar photovoltaic plant will add significant renewable capacity to Albania's grid, supporting the country's transition to a more resilient and sustainable energy system.

Albania is also aiming to increase its non-hydro renewables to almost 640MW by 2030, of which 490MW is planned to come from solar photovoltaic plants. As part of the project, KESH is ...

On May 6, 2025, the Albanian government approved the development of two new solar power plants, totaling 54 megawatts (MW) in capacity.

Five utility-scale solar photovoltaic parks with a combined installed capacity of 156 MW were commissioned in Albania in 2025. The largest of ...

In the first eight months of this year, Albania added two solar power plants of an overall 150 MW and a hydropower facility of 48.9 MW to its ...

In the second quarter of 2025, solar power plants accounted for 16.4% of Albania's total domestic energy production, up from 6.8% in the same period of the previous year. This sharp ...

Albania's Ministry of Infrastructure and Energy has received three proposals for solar parks totaling 105.6 MW, all without subsidies or concessions.
