-----

Solaron was founded in 2016. Our company is the first manufacturer of solar panels in Armenia, with an annual production capacity reaching up to 60 megawatts.

Armenian consumers will soon be able to purchase locally produced monocrystalline black panels as well. Being the first local manufacturer of ...

Monocrystalline solar panel with 320 W nominal power. You can get increased power generation in all weather conditions due to the high efficiency of solar panels. Presented solar panels are produced in ...

Long-term guarantee Solar modules are produced in Armenia on innovative high-tech equipment. Our solar systems are certified according to international standards (CE, EAC, IEC, UL, PID) and have ...

Explore the potential for solar panel manufacturing in Armenia. Our 2025 analysis covers labor costs, supply chain challenges, and key ...

Our range of services includes: customer demand assessment, solar power plant planning and design, Solar electric station installation, warranty and post-warranty service.

With all of these years of research, there are a few fields that appear to be the best solution: mono and polycrystalline solar cells, string ribbon solar cells & thin film solar cells.

Manufacture of monocrystalline, polycrystalline and monocrystalline PERC panels, photovoltaic solar systems. Consulting, design, installation, warranty and post-warranty service
