The photovoltaic wire is automatically feeding wire, the A end is half-stripped or tinned, the B end is inserted into the connector and the nut is tightened; Counterweight single-axis pay-off machine (used ...

It mainly focuses on the automotive, photovoltaic and new energy industries and has developed and produced a series of automatic processing equipment with high quality, stable performance and high ...

Our automatic crimping machines seamlessly integrate key wire processing tasks, such as cutting, stripping, crimping, seal insertion, tinning, and twisting, into one ...

Our new generation of stripping and crimping machines is equipped with an all-purpose adjustable stripping unit and a user-friendly touchscreen display. They ...

EASTONTECH was founded in 2003 with ISO 9001 and CE certification. We are the leading manufacturer of wire harnessing equipment in China and our products have been sold to more than ...

It integrates automatic feeding, wire cutting, stripping, and continuous double-head crimping in one compact, efficient unit.

Fully automatic wire and cable crimping machines for cutting, stripping, crimping, sealing, twisting, and tinning.

Fully automatic MC4 connector pin crimping machine can cut wire, strip insulation, crimp terminal on both side of the solar panel cables. An ideal solution for mass processing of solar wiring harnesses.

With a focus on streamlining the assembly process, this automatic machine ensures a high level of accuracy and consistency in the production of PV solar connectors. Its advanced technology allows ...
