IPS has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria - a site ...

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

The newly updated Bulgaria BESS Market Outlook 2025-2034 highlights both the opportunities and challenges that will shape this sector over the next ten years.

SVOLT has successfully commissioned a 20MW/41.28MWh battery energy storage system in Burgas Province, Bulgaria, further strengthening its presence in the Eastern ...

By integrating energy storage, this project captures excess solar power during the day and dispatches it during high-price periods, significantly improving revenue potential.

This project uses SERMATEC's self-developed EMS system, integrating PV power generation to achieve self-consumption of solar and energy storage. The EMS not only stores ...

The funding will support the construction of a utility-scale battery storage facility in the Nova Zagora area. The project will have an ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts
