EP Cube is a flexible and intelligent residential energy storage system intended for smart management of solar power generation and residential electricity consumption.

With an integrated hybrid inverter, this smart gateway supports both DC and AC PV input, making it suitable for both new and retrofit PV systems. It ...

The initial phase of development includes monitoring approximately 30 utility-scale solar facilities based on Ontario, Canada and California, USA. A subsequent ...

On June 11, 2025, Canadian Solar Inc. made a grand entrance at SNEC 2025, showcasing its cutting-edge lineup of next-generation N-type high-efficiency ...

Canadian Solar has announced the formation of CS PowerTech, reclaiming direct oversight of U.S. manufacturing with a \$50 million strategic ...

Our Canadian Solar inverters deliver high efficiency and reliable operational stability, ideally matched to Canadian Solar modules and common battery systems. They ensure low-loss energy conversion, ...

EP Cube Wins Japan's Prestigious Good Design Award, Leading the Future of Home Energy Storage with Exceptional Design Today, Canadian Solar's residential energy storage system EP Cube stood ...

The CSCU-EPM-01 Smart Power Control Box is a versatile and intelligent device designed to enhance the efficiency and functionality of solar energy systems. It ...

Its integrated hybrid inverter and intelligent energy management system streamline installations and provide efficient, dependable power, even during outages. The ...
