In a landmark event held in the Region of Antofagasta, Chilean President Gabriel Boric led the inauguration of the BESS Coya, Latin America's largest solar battery storage system.

The initiative is set to become one of the largest battery energy storage system (BESS) developments in Chile. The project is located in María ...

Solar power combined with battery energy storage is at the forefront of Chile's recent generation growth.

With an investment of US\$130 million, the project - dubbed PV & BESS Libélula - is in the early stages of construction and is forecast to begin ...

With solar capacity expected to grow by 200% in Chile alone by 2030 [4], companies like Canadian Solar's e-STORAGE and CL Energy Storage are racing to deploy battery-packed containers faster ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile wants ...

The 4MWh BESS Container isn't just energy storage--it's a desert-hardened Swiss Army knife. Combining 20x200kWh LiFePO4 racks (the gym buddies of ...

Set to be built in seven phases in total, the Oasis de Atacama complex will comprise 2GW of solar PV and 11GWh of battery storage in total, ...

This battery storage solution, proprietary to e-STORAGE, features lithium-iron-phosphate battery technology, an active balancing battery ...
