The electric vehicle charging station market size exceeded USD 39.7 billion in 2024 and is estimated to grow at a CAGR of 24.4% from 2025 to 2034, driven by rising EV adoption, supportive government ...

1.3 Our market study has considered the supply of chargepoints for electric passenger vehicles (cars and light vans)³ across the UK, which is an emerging but fast-growing sector.

Response to Market StudyFinal ReportDecision Not to Make A ReferenceProgress UpdateLaunch of The Study23 July 2021: We have published the final report of our market study into electric vehicle charging. We have set out a package of recommendations to unlock greater investment, promote competition and build people's trust in this sector. We have also opened a competition law investigation into the supply of electric vehicle chargepoints on or near m...See more on gov.uk.b_ans
