Our outdoor energy storage cabinet is an intelligent integrated management system that provides reliable and efficient energy storage for outdoor applications.

Easy to install High degree of modularity, simple structure, easy installation and maintenance. Facilitate transportation and installation, reduce infrastructure construction costs, and shorten construction time.

? Solar + Storage Ready - The cabinet seamlessly integrates with rooftop or ground-mounted PV systems, enabling: Maximum solar self-consumption Reduced grid export limitations Higher overall ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

The 233kWh Liquid Cooling Outdoor Cabinets medium-sized energy storage system is an energy storage product designed for industrial and commercial applications. It can be directly connected to ...

SUNWODA's Outdoor Liquid Cooling Cabinet is built using innovative liquid cooling technology and is fully-integrated modular and compact energy storage system designed for ease of deployment and ...
