The European Bank for Reconstruction and Development (EBRD) is considering lending up to EUR 40 million (USD 47.3m) for a 50-MW solar project with a 20-MWh battery storage component ...

The MENALINKS programme, implemented by Guidehouse and its partners ALCOR, Elia Grid International (EGI), Fraunhofer ISI and others, continues its commitment to strengthening ...

Tunisia's energy storage power generation sector is transforming faster than a desert sunset. With solar irradiation levels hitting 5.3 kWh/m²/day and wind speeds reaching 9 m/s in coastal areas, this North ...

This report provides an initial insight into various energy storage technologies, continuing with an in-depth techno-economic analysis of the most suitable technologies for Finnish conditions, namely ...

Have its own back-up power supply system to maintain protection in the event of a loss of primary power to the fire suppression system and should self-diagnose and report the presence and general ...

Preliminary studies have confirmed the critical role of storage technologies in supporting Tunisia's ambitious renewable energy targets. The recent launch of the country's first large-scale energy ...

Société Tunisienne de l'Electricité et du Gaz (STEG) is planning to secure a loan of EUR 40 million from the European Bank for Reconstruction and Development (EBRD) to support a new solar ...

This article explores how battery storage, pumped hydro, and innovative technologies can transform Tunisia's power infrastructure while addressing challenges like solar intermittency and peak demand ...

Discover the key differences between solar power and battery storage--from financial savings and energy security to installation costs and ROI. Learn which solution aligns with your needs through ...
