The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, putting ...

Together, these developments demonstrate how combining renewable generation with energy storage and long term optimization tools can unlock new value for the Baltic energy market and support ...

This structure, backed by investment-grade guarantees, introduces a new commercial model for hybrid renewable-plus-storage assets in the Baltics and Nordics and supports the long-term integration of ...

Estonia's first long-duration energy storage project, Zero Terrain Paldiski, obtained the main building permits in December 2022. Construction of the country's first pumped-hydro storage ...

Estonia has delivered its largest heat storage facility, begun construction on its largest solar-plus-storage hybrid project, and is preparing to break ground on an 800 MWh battery park in...

Diotech OÜ and Transcom AS will commence construction in February 2026 of a 100 MW / 200 MWh battery energy storage system (BESS) facility in Tsirguliina, Valga County.

Major Milestone for Estonia's Energy Sector as Largest Domestic Battery Energy Storage System project breaks ground 16. Feb 2026 Diotech OÜ and Transcom AS will commence ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.
