Our company's self-innovated power battery cell assembly line, lithium battery module line adopt semi-automatic and fully automatic production process, which greatly improves the production efficiency ...

At Xiaowei New Energy, we design and build automatic battery pack production lines engineered for the full spectrum of lithium-ion applications -- from EV battery packs to energy storage systems (ESS), ...

This automatic battery pack assembly line uses robots and automation to assemble battery packs from cartons of EV cells.

This equipment is designed to support efficient and accurate battery assembly and testing workflows. With durable construction, precision control, and user-friendly operation, it delivers consistent ...

At BESS, we are committed to accelerating the global transition toward clean energy by providing cutting-edge solutions for battery production, efficient recycling, and sustainable materials recovery.

Edobo Company specializes in producing battery production lines. With 15 years of research and development experience, we have developed advanced technologies and processes to ensure that ...

This line integrates multiple processes including cell sorting, module assembly, welding, inspection, and PACK integration, ensuring high precision, efficiency, and product reliability.

One-stop solution for semi-automatic and fully-automatic assembly lines for prismatic& pouch battery packs.

Enhance efficiency and streamline operations with advanced fully automatic battery pack assembly machine solutions. Benefit from innovative designs and customizable options tailored for optimal ...
