The Amfilochia pumped storage hydro facility is improving grid stability, boosting local skills and enabling knowledge exchange.

Delivering less than 54 dB (A), these energy storage system containers are suitable for noise-sensitive environments, such as events and construction sites in metropolitan areas, as well as for telecom, ...

These Energy Storage Systems are a perfect fit for applications with a high energy demand and variable load profiles, as they successfully cover both low loads and peaks.

Modified 20ft, 40ft, 45ft, and 50ft containers for Battery Energy Storage System including HVAC, Fire Detection and Fire Suppression system to accommodate Battery units.

The Scheme targets standalone energy storage technologies with a minimum injection capacity of 1MW connected to Greece's high-voltage transmission system managed by the ...

Greece's ambitious renewable energy goals and rugged geography make mobile energy storage vehicles (MESVs) a game-changer. These portable systems, designed by manufacturers in ...

Greece's strategic location and renewable energy ambitions have positioned it as a hub for innovative container energy storage systems. These modular units are reshaping how industries store and ...

Greece's Regulatory Authority (RAE) has selected 48 projects with a combined capacity of over 1.5 GW as provisional winners in its second tender for battery energy storage capacity.

How can a mobile energy storage system help a construction site? Integrate solar, storage, and charging stations to provide more green and low- carbon energy. On the construction site, there is no ...
