Perfect for renewable energy projects, EV charging stations, remote areas, islands, and critical facilities, the LiHub-H ensures reliable, efficient, and flexible power storage.

On the off-grid side, they address power needs in remote areas, supporting forklift charging, server operation, and other critical tasks. Additionally, our products excel in peak shaving, ...

Our photovoltaic power plants, wind farms or home solar systems may be equipped with off-grid systems when purchasing. Then, when the equipment needs to be ...

It is connected in series between the grid-connected inverter and the energy storage cabinet. The product has a series of protections, including energy meter, undervoltage tripping, low grid ...

Whether for industrial and commercial energy storage, microgrids, emergency backup power, or photovoltaic-storage-charging integration, Imax Power can provide customized solutions, ...

Compatible with solar PV, diesel generators, and grid power, it provides stable energy for microgrids, remote areas, manufacturing facilities, farms, and EV charging stations.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, ...

When the utility grid fails, the PCC switching cabinet switches to the emergency power source automatically, ensuring normal operation of critical equipment.

During peak periods or grid failures, the storage system supplies power to the load via the STS switching cabinet, achieving peak load shaving, ...
