Spread across 13 acres, the solar farm combines 5 MW of photovoltaic capacity with battery storage technology capable of retaining surplus energy during daylight hours and supplying it ...

Under the Guyana Utility Scale Solar Photovoltaic Program (GUYSOL), 8 Solar Farms are being constructed across Regions 2, 5, 6, and 10 for 33MWp. The ...

Rows of solar panels now cover former cane fields in rural Hampshire, marking another major step in Guyana's drive to cut emissions, ...

Sustainable energy generation in Region Two has taken a significant leap with the commissioning of the US\$10.4 million (\$2.2 billion) 5 megawatt ...

In a significant step towards advancing solar power in Guyana, an 8-megawatt solar PV farm - the largest of its kind - will be constructed in the ...

By pairing 5 MW of solar generation with advanced battery storage, the facility can capture excess daytime energy and release it after sunset, ...

The off-grid solar project, launched in July 2023, aims to expand renewable energy access in hinterland and riverine communities that are not ...

Guyana is set to significantly boost its renewable energy capacity by commissioning eight large-scale solar farms in 2025. This initiative is part of the ...

The government through the Guyana Energy Agency (GEA) has officially handed over the site for construction of the new 3 MW grid-tied solar photovoltaic (PV) plant at the Cheddi Jagan ...
