Grid-Tie Solar Power Systems Off-Grid Solar Power Systems Backup Solar Power Systems Grid-tie solar is, by far, the most cost-effective way to go solar. Because batteries are the most expensive component of any solar system, but grid-tie solar owners can skip them completely! So how do grid-tie solar power systems work? First, let's define what we mean by the "grid". The grid is the utility company's network of equipment that bring...
