Warehouse A containerized solar power solution combining mobility, power generation, and energy storage. With 18-150kW PV capacity and 20-430kWh energy storage, it delivers reliable ...

Huijue Group's 4MWh European energy storage project exceeds profit expectations, generating EUR3,000-EUR5,000 daily, achieving a two-year payback, and enhancing grid stability while supporting ...

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency. This solution is scalable, ...

In the heart of China's renewable energy drive, Shandong Unicom, a subsidiary of Huijue China, embarked on a groundbreaking distributed photovoltaic (PV) power generation project.

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

In combination with the green space in the factory area, the number of parking spaces is expanded to 19. The project involves the construction of a green, smart carport that integrates ...

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system consists of four 10-foot 46KW foldable photovoltaic containers ...

Huijue Group's new generation of smart energy solutions integrate green energy systems, advanced intelligent control systems and services to achieve energy saving at the sites, reduce energy ...

As China targets carbon neutrality by 2060, the Menghai Solar Power Generation Project in Yunnan Province has emerged as a critical test case for large-scale renewable energy integration.
