---

The core components of these systems include PCS, lithium-ion batteries and energy management systems. These "turnkey" ESS ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from ...

We represent Ireland and Northern Ireland's energy storage industry bringing together exciting new technologies and innovations that will help decarbonise ...

In Ireland, where grid congestion and renewable integration challenges are growing, microgrids can help bypass infrastructure bottlenecks, accelerate the rollout of wind and solar, and ...

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery ...

Our certified specialists provide support for outdoor communication cabinets, power equipment enclosures, and battery storage cabinets across Africa. Subscribe for latest insights on outdoor ...
