Located in one of Japan's key manufacturing clusters, the 2MW/8MWh project requires exceptionally high standards for power continuity and power quality.

Recently, CLOU's 2MW/8MWh independent energy storage project in Aichi Prefecture, Japan, officially commenced operation and began participating in the local grid's primary frequency...

CLOU has commissioned its first independent 2MW/8MWh battery energy storage project in Japan, using the 10ft Aqua-C2.5S mini liquid-cooled, ...

2MW battery energy storage system is modular designed, and can be quickly installed. The BESS container can provide you with stable and reliable energy in ...

I-mobile plans to commission its first grid-scale storage facility in July 2025, the company said on March 17, 2025. The 2MW/8MWh high-voltage ...

Vanitec is a technical/scientific committee bringing together companies in the mining, processing, research and use of vanadium and vanadium-containing.

Through the "Nuvve Platform," we bridge the gap between transportation and the energy sector, supporting the transition to clean energy and ensuring a resilient electrical grid.

The project will feature a rated output of 2MW and a storage capacity of 8MWh (4-hour duration), with operations scheduled to commence in November 2026.

Our experience and expertise will strongly support your energy transformation and new revenue opportunities. A step ahead in energy solutions, towards a sustainable future.
