-----

All required materials for the floating solar PV plant at the MWSC water reservoirs have been received in Majuro. Demolition of gensets 3 and 4 under the EPC contract has begun at the MEC power plant.

MAJURO, Marshall Islands -- Major energy developments for the Marshall Islands capital will become visible from mid-2026 and beyond.

Imagine harnessing the endless sunshine of Majuro to power homes, businesses, and critical infrastructure - even after sunset. That's exactly what Battery Energy Storage Systems (BESS) ...

The project, constructed under the World Bank's Sustainable Energy Development Project (SEDeP), showcases practical innovation at work. While ...

As remote locations like Majuro transition to renewable energy, modular MW-scale storage containers have become critical infrastructure. These systems act as "power banks" for island grids, storing ...

The Official Journal of the Solar Energy, the official journal of the, is devoted exclusively to the science and technology of solar energy applications. ISES is an UN-accredited membership-based NGO ...

Our renewable energy store and project office is conveniently located at the center of Majuro, and we also have a lagoon-side facility for training outside of town in Ajeltake.

Majuro's tropical climate offers abundant sunshine - but harnessing solar power requires more than just panels. With rising energy demands and frequent weather fluctuations, customized energy storage ...

In August 2016, Sunergise announced the launch of an innovative solar power generation plant designed to collect BOTH rainwater and solar energy for the ...
