Explore the performance metrics of the 4F27E transmission, including gear ratios, torque capacity, and efficiency. This section provides insights into how the transmission enhances the ...

4F27E (Ford Focus) & MAZDA FN4A-EL 4 SPEED FWD (Full Electronic Control) Revision 02/2012

For the Ford vehicles without the drain plug, a Mazda transmission pan can be installed on a Ford 4F27E, and it will fit perfectly. Aftermarket transmission pans are also available.

The 4F27E is an electronically controlled 4-speed automatic transaxle transmission developed by Mazda and Ford. Mazda's name for this transmission is FN4A-EL, Ford's name for this transmission is 4F27E.

To minimize fuel consumption, the torque converter clutch is applied by the PCM in 3rd and 4th gears, depending on throttle position and vehicle speed. This unit is designed to use Mercon® V automatic ...

This manual provides detailed instructions for the disassembly, inspection, repair, and reassembly of the Mazda FN4A-EL automatic transaxle, including safety warnings and recommended procedures.

Types of 4F27 Transmissions The 4F27 four-speed automatic transmission, commonly known as the Mazda Transaxle, is a robust and widely used automatic gearbox developed through collaboration ...

Automatic transmission is controlled by electronics and has reduced valve body. This allows for maximum efficiency of the cooling and lubrication of the transmission.

Get a detailed diagram of the 4F27E transmission and understand how it works. Explore the components and learn about its internal structure.
