The Microgrid Systems Laboratory is a collaborative effort to speed the transition to a more resilient, sustainable, and equitable electricity system. Microgrids are ...

What Is A Microgrid?The Perfect Power Microgrid Project at Illinois TechHistory of The Illinois Tech MicrogridFacts and StatsA microgrid is a self-sufficient energy system that serves a discrete area, such as a college campus, hospital complex, business center, or neighborhood. They are usually powered by distributed energy including solar panels, wind turbines, and generators. Microgrids can also incorporate energy storage, typically from batteries, and some hav...See more on iit
