When you set up your device in the Ring app, the app should recognize the Ring solar panel quickly without you needing to do any extra work. ...

Managing Power Modes for Outdoor Cam Outdoor Cam (formerly Stick Up Cam (3rd Gen)) is a flexible next-generation security camera that can be used both indoors and outdoors to bolster the security ...

Habitats orbiting closer than the ringworld could even act as solar shades to simulate a day/night cycle on the ringworld. The only way to make a full Dyson swarm is to layer them. As a result, the outer ...

There are a few ways for a very creative writer to get a varying light-dark period on a ringworld. One is to put a planet between the ring world and the sun. The planet, during its orbit, ...

If we had the power to construct such a megastructure, would we do it? The Ringworld raises ethical questions about manipulating natural systems, the implications of creating controlled ...

OverviewOriginsSearch for megastructuresFeasibility and science-based speculationFictional examplesSee alsoFurther readingExternal linksInspired by the 1937 science fiction novel Star Maker by Olaf Stapledon, the physicist and mathematician Freeman Dyson was the first to formalize the concept of what became known as the "Dyson sphere" in his 1960 Science paper "Search for Artificial Stellar Sources of Infra-Red Radiation". Dyson theorized that as the energy requirements of an advanced technological civilization increased, there would come a time when it w...

Are the scales here 100% accurate? Likely not, but I was looking to capture a feeling more than anything. I always thought that ring worlds were a cool ...

A walk through my project of making my own solar panel to charge the Ring Video Doorbell 2 in more efficient way.

Ring World Modification of Solar Power Generation

This can be accomplished by placing orbiting structures between the star and the ringworld, creating night when the light is blocked; these structures ...
