Find your adjustable ups easily amongst the 36 products from the leading brands (FEAS, Bicker, SOCOMEC, ...) on DirectIndustry, the industry specialist for your ...

From switched mode and industrial uninterruptible power supplies to transformers, every product is designed for reliability and dependable operation.

IP11 Series UPS is a true on-line UPS with microprocessor controller that delivers continuous, high-quality AC power to connected equipment with no interruption when transferring to battery.

AL-Series True online double conversion design Power factor correction (PFC) IGBT design for 20 kHz SPWM high frequency inverter Wide input voltage range (+%25 of nominal) LCD display front panel ...

All devices are idling-proof and short-circuit-proof, and are available with a regulated and adjustable output voltage of 12, 24, and 48 V DC with output currents of 2.5, 5, 10, 20, 30, and 40 A. Power ...

a low-pass series filter with toroidal isolation transformer. The TTF/ILF provides for total protection against all power aberrations and eliminates any troublesome constant voltages which ...

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology - most power disturbance ...

Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free and guarantee an ...
