This frustrating issue has led many Tesla Solar users to find an alternative to using the Tesla Solar app. Monitoring systems purchased from outside manufacturers ...

Locate your solar panels or PV plant and start forecasting the power & generation. Live current power. Enter your design parameters and follow the current power ...

As per the title at some point over the last week the historic data for PV generation that is usually displayed for monthly/yearly totals has disappeared- the option to filter in/out that data is also ...

Identify underperforming modules with a holistic easy-to-read view of your entire PV layout. You'll see energy production and consumption and get real-time illustrations of your power flow as well as ...

In addition switching to another tab can cause the "freeze" of the app. However, the data is still displayed in Sunny Portal powered by ennexOS and via the user interface of the inverter.

Starting 16 April 2026, the core OpenSolar app stays free, and charges apply only to moving data in and out of the platform through API ...

Estimates the energy production and cost of energy of grid-connected photovoltaic (PV) energy systems throughout the world. It allows homeowners, small building owners, installers and manufacturers to ...

Latest app update suddenly broke my ability to see any data on usage and generation from my panels. Don't have a power wall, just panels and the gateway Tesla provided.

Monitor your system status from anywhere and know exactly how much energy your solar system is producing. Generate reports on energy production by day, ...
