View and Download Xstream Flat Plate Collector mounting installation instructions online. Flat Plate Collector solar panel pdf manual download.

Start by tying the strap to the top bracket and run through the brackets below and tie to the bottom bracket. Make sure strap is tight, holding solar panel on roof.

The collectors are attached to horizontal rails that are mounted on triangular racks. The inclination of the racks is adjustable to match the desired angle of insolation.

After locating the mounting points from Figure 1 for vertical mounting, Figure 2 for horizontal mounting, and Table 1, layout the roof as specified and drill 5/16" holes between the rafters where indicated.
