Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Solar system for shipping container. Includes 8kW solar array, 12kW inverter, 15kWhr battery and rooftop solar structure. Designed for 40ft container.

Here's how I did it. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit.

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

SunBOX 30A - mobile PV based on 20' container. Mobile PV solution with the dimensions of a 20' container. Thanks to this, you can transport SunBOX 30A ...

Compare commercial ... offering You can also check out our solar inverter battery cabinets, BBA solar battery enclosures, underground solar battery boxes, and more products specifically made for ...
