MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4' x 8' palletized enclosure. All energy systems are equipped with a ...

Discover how solar containers are revolutionizing rural electrification. Learn how to plan, size, deploy, and operate off-grid solar units effectively--real ...

We design a solar container that fits your needs and send you a personalized quote.

Solar containers provide the steady electricity needed to power LED grow lights, climate controls, and circulation pumps in off-grid greenhouses or shipping container farms.

With an existing tracking solar mount, we aimed to integrate their existing solar in the new off-grid system, which would be housed in a converted shipping container and also included a new...

If you are an agricultural land owner and are considering your options to go solar, here are some resources to help you decide what's best for you.

Solar panels on your farm can lower operational costs. Learn how to secure federal funding for solar energy on your farm or ranch.
