---

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical equipment UPS protection ...

As a fully integrated solar battery storage system, it combines power conversion, high-voltage lithium battery storage, intelligent thermal management, and multi ...

100kW/215kWh outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application scenarios such as industrial parks and commercial complexes, ...

Each liquid-cooled cabinet houses five 314Ah battery modules, with each module consisting of 52 REPT 314Ah LiFePO<sub>4</sub> cells in series, delivering 52.2kWh per ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...

This system integrates: Hybrid solar inverter Lithium battery storage Battery management system (BMS) Energy management system (EMS) Fire protection Thermal management into one compact outdoor ...

Equipped with an independent liquid cooling system, it achieves higher energy density and enhanced heat dissipation within a compact footprint, while offering ...

Engineered with Grade A LiFePO<sub>4</sub> cells, multi-level protection, and AI-powered monitoring, our liquid-cooling storage cabinet delivers safe, efficient, and ...

Our integrated energy storage solution is designed to help commercial and industrial users lower electricity costs, enhance supply reliability, and improve power quality.
