Deal Orchards is the first orchard in the southeast to become an EcoCertified grower. Now the company can add generating 75% of its energy ...

View the monthly generation and consumption, generator details, and more for Onondaga County - Oak Orchard WWTP.

A small experimental apple orchard at Cornell's Hudson Valley Research Laboratory may soon be topped by solar panels, which would not only track the sun to capture energy, but also ...

This Central Otago cherry farm's solar PV and battery system powers the world's first fully electrified orchard -- showcasing scalable clean energy ...

A small experimental apple orchard at Cornell's Hudson Valley Research Laboratory may soon be topped by solar panels, which would capture ...

Solar panels over apple orchards could generate electricity without sacrificing farmland, according to a state-funded report.

This innovative project, spearheaded by the Institute for Northwest Energy Futures (INEF) in Tri-Cities, is not just about harnessing solar energy; ...

This funding, provided by the Washington State Department of Commerce, is set to launch an innovative agrivoltaic system at the WSU Sunrise Research Orchard near Wenatchee, ...

It is proposed to include both a solar power generation and battery storage. This will create clean, low-cost energy throughout the year. When excess energy is generated, it can be stored in the batteries ...
