Data and information about power plants and their location across the globe, plotted on an Interactive world map

This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the ...

The Global Solar Power Tracker is composed of worldwide facility-level data on utility-scale (1 MW+) solar photovoltaic (PV) and solar thermal facilities, as well as country-aggregated distributed (<1 ...

PVGIS is a free web application that allows the user to get data on solar radiation and photovoltaic system energy production, in most parts of the world.

The U.S. Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. front-of-the-meter, photovoltaic facilities, direct current ...

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. View an interactive map or download ...

The GSA provides an interactive map of solar resource and photovoltaic power potential and a variety of other environmental data relevant for understanding ...

Data and analysis including a list of solar power in every country in the world, countries with the most solar power, and countries that generate the highest ...

Tracker Map - Global Energy Monitor. Switch from project:Global Solar Power Tracker. Global Integrated Power Tracker. Global Energy Transition Tracker. Global Coal Plant Tracker. Global Coal ...
