-----

It includes corresponding PV facility information, including panel type, site type, and initial year of operation.

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. View an interactive map or download ...

PV-Live: This dataset provides real-time data on solar energy generation in the United Kingdom. It includes data on the total amount of solar energy generated, as well as data on individual solar ...

The Global Solar Power Tracker is composed of worldwide facility-level data on utility-scale (1 MW+) solar photovoltaic (PV) and solar thermal facilities, as well as country-aggregated distributed (&lt;1 ...

The Global Power Plant Database is a comprehensive, open source database of power plants around the world. It centralizes power plant data to make it easier to navigate, compare, and draw insights ...

Lawrence Berkeley National Laboratory compiled and synthesized empirical data on the U.S. utility-scale solar sector.

Find statistics on electric power plants, capacity, generation, fuel consumption, sales, prices and customers.

SEIA makes major solar project data available to the public through the map below. SEIA members have exclusive access to the list as a sortable, searchable MS Excel file that is updated ...

The Global Solar Atlas provides a summary of solar power potential and solar resources globally.
