Chinese manufacturer Sungrow Hydrogen has won a firm order to supply 5MW alkaline electrolyzers to Indian developer ACME Group for the 320MW first phase of a 3.5GW green ...

Sungrow Hydrogen showcased its four-to-one ALK hydrogen production system and the latest PEM water electrolyzer, and was invited to talk ...

The newly released 300Nm³/h PEM water electrolyzer from Sungrow Hydrogen not only breaks through the record of hourly hydrogen yield per PEM stack in the Chinese domestic market but also catches ...

Sungrow's electrolyser can produce 1,200 metres of hydrogen per hour (Nm³/h) at a purity of up to 99.999%, which marked a "significant step of the coal, chemical and new energy coupling technology ...

Sungrow Hydrogen has launched production at a pioneering green hydrogen project in Daye, Hubei province, China, featuring a 200 Nm³/h PEM ...

The industry believes that the comprehensive technological breakthroughs of Sungrow Hydrogen Energy's HyGrow 2000 Nm³/h electrolyzer not only present a convincing anniversary ...

Hydrogen-Product-PEM Water Electrolysis Equipment by Sungrow provides high efficiency, proven reliability, and advanced features to meet diverse clean energy needs.
