-----

That's the Tbilisi Energy Storage Base - not just another battery farm, but a game-changer in the Caucasus energy landscape. Opened in late 2024, this lithium-ion wonder stores surplus wind ...

Long-duration energy storage solutions provider Sinergy Flow has closed a late-seed funding round, raising EUR 7 million (USD 8.25m) to expand its team and advance the development ...

While Tesla's Megapack installations dominate headlines, Tbilisi's unique needs demand a hybrid storage approach. The city's first grid-scale flow battery (30MW/120MWh) came online in January ...

From industrial plants to shopping malls, Tbilisi's energy future is being rewritten by smart lithium storage solutions. By balancing cost efficiency with reliability, these systems aren't just about power ...

The city's first grid-scale flow battery (30MW/120MWh) came online in January 2025, providing 4-hour discharge capacity for evening peak demand. Lithium iron phosphate (LFP) batteries currently power ...

Scientists from the Department of Energy's Pacific Northwest National Laboratory have successfully enhanced the capacity and longevity of a flow battery by 60% using a starch-derived additive, v ...

Sinergy Flow, a climate tech company focused on long-duration energy storage (LDES), has closed a EUR7 million late-seed funding round to accelerate the development and commercialization of its flow ...

At the same time, relying on the integration and application technology of lithium battery energy storage system, the company focuses on portable energy storage, residential energy storage, ...

Summary: Explore how Tbilisi's battery energy storage policies are shaping Georgia's renewable energy landscape. This article breaks down regulations, investment opportunities, and real-world ...
