All Vineyard Wind 1 operations are halted, for now, after part of a blade on one of the offshore turbines broke off and fell into the ocean over the weekend.

The failure of one of Vineyard Wind's turbine blades has shut down the ambitious offshore energy project and littered Nantucket's beaches with debris. But what do we know so far regarding ...

"Vineyard Wind experienced blade damage on a wind turbine in its offshore development area. No personnel or third parties were in the vicinity of the turbine at the time, and all employees of ...

A GE Vernova turbine blade failed at the U.K.'s massive Dogger Bank offshore wind installation this spring, and another broke several blades in Germany last fall, which brought the ...

The massive offshore wind turbine blade that broke and spread fiberglass and foam debris across Nantucket beaches this week was one of several recent failures of blades made by GE ...

The broken turbine is a major setback to Vineyard Wind, which was a bright spot for the nascent and struggling offshore wind industry in the US.

People in the area said they felt their homes shake when the machinery fell into a cranberry bog. The blade of a wind turbine broke off the structure in southeastern Massachusetts on ...

A damaged 300-foot blade recently broke off a wind turbine being tested in the Vineyard Wind 1 offshore wind farm off the Massachusetts coast. Though no injuries have been reported, ...

All Vineyard Wind 1 operations are halted, for now, after part of a ...
