-----

Tri-rated cable is a high temperature, flame retardant electrical wire designed for use inside electrical equipment. Tri-rated cable meets the requirements of three different international standards: BS ...

These cables are intended for use in the wiring of switch, control, metering, relay and instrument panels of power switchgear, and for such purposes as internal connections in rectifier equipment and its ...

Application: High temperature cable designed for use on internal wiring appliances and for the wiring of switch, control and instrumentation panels of power switchgear.

The British standard Tri-Rated cable is sometimes referred to as panel wiring cable due to its application and purpose. It is a high temperature, flame retardant cable designed for use in instrumentation ...

Tri-Rated Cable Sizes & Electrical Characteristics  
Bi-Rated Cable H05Z-K / H07Z-K / 2491B / 6701B - LSZH  
Cable Tri-Rated Cable Datasheet Pdf  
Please refer to and download our tri-rated cable PDF datasheet for the full cable specification. Our technical engineers have a wealth of experience advising on tri-rated current rating (current carrying capacity) and voltage drop. Please contact us for technical support with selecting the right cable for your specific application or use our Fast Q...
