---

Victoria has fast-tracked two new large-scale battery projects - strengthening the state's storage capacity and position as a renewable energy leader in Australia.

The 500 MW energy storage project is located near a high-voltage substation in northeastern Victoria. The energy storage system will store low ...

Victoria has passed another milestone in its energy transition, becoming the first state with a combined charging rate exceeding one GW. The surge in charging was driven by the initial ...

The Victorian Big Battery is a 300 MW grid-scale battery storage project in Geelong, Australia which stores enough energy in reserve to power over one million Victorian homes for 1/2 an ...

China's Trina Solar has received the green light to build a 500MW/1,000MWh battery energy storage system (BESS) in Victoria, Australia.

Victoria's clean energy transition is accelerating with the approval of a \$453 million Battery Energy Storage System (BESS) in north-east Victoria, backed by leading Chinese firm Trina ...

Victoria, Australia, surpassed 1 GW of energy storage project charging capacity for the first time, with peak wind and solar curtailment reaching 906 MW. Victoria became the first Australian state to ...

Chinese supplier of photovoltaic (PV) and energy storage solutions Trina Solar Co Ltd (SHA:688599) has secured the thumbs-up for the ...

The Victorian Government has approved the state's largest-ever battery storage project - a one-gigawatt facility that it says will deliver cleaner, cheaper, and more reliable renewable energy ...
