With high energy efficiency and optimized operating and maintenance processes, operating costs are low, making the battery container an economical choice. It also has an impressively long service life, ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Designing, developing and manufacturing customised lithium-ion battery packs using a full range of battery chemistries, Alexander Battery Technologies delivers incredibly reliable custom battery packs ...

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by ...

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of ...

Vienna's unique position in Europe's energy transition makes it the smart choice for wholesale battery procurement. Whether you're balancing microgrids or powering e-mobility fleets, partnering with local ...

The new SALT 110 battery storage system from the Vienna-based company has a usable capacity of up to 110 kWh. The storage system is reportedly capable of 6,000 charge cycles at a ...

With our extensive product range, MIMEX is the wholesaler for batteries, inverters, electric vehicle chargers, photovoltaic storage and charging integrated carports, and photovoltaic sunshade. Most of ...

CellCube is a leader in sustainable energy storage, specializing in vanadium redox flow batteries (VRFBs) that allow for efficient and clean storage of large electricity capacities for 4 to 24 hours.
