Royalty-free wind turbine sound effects. Download a sound effect to use in your next project. Over 5.9 million+ high quality stock images, videos and music shared by our talented community.

Discover the real sounds of wind turbines. Uncover the truth behind the noise and learn what to expect from these renewable energy giants.

The sound of a wind turbine is mainly created by those generators housed within the nacelles can also create a constant droning or humming ...

What kinds of noise do wind turbines produce? Wind turbines most commonly produce some broadband noise as their revolving rotor blades encounter turbulence in the passing air. Broadband noise is ...

As the technology has advanced, wind turbines have gotten much quieter, but noise from wind turbines is still a public concern. The problems associated with wind turbine noise have been one of the more ...

Construction of wind turbines involves a variety of activities such as seismic exploration (with airguns), excavation with explosives, dredging, ship and barge ...

A 10 minutes field recording of a wind turbine, 850kW, total height 80 meters. Some flag pole noise to the right. For more information and mp3's see ...

This paper discusses various noise generation mechanisms in wind turbines and potential noise reduction techniques. Special emphasis has been laid on reviewing aerodynamic noise ...

The closest that a wind turbine is typically placed to a home is 300 meters or more. At that distance, a turbine will have a sound pressure level of ...
